

Ferroglobe Announces Appointment of Marco Levi as Chief Executive Officer

January 13, 2020

LONDON, Jan. 13, 2020 (GLOBE NEWSWIRE) -- Ferroglobe PLC (NASDAQ:GSM) ("Ferroglobe" or the "Company"), announced today that Dr. Marco Levi has been appointed as its Chief Executive Officer (CEO), effective immediately. Dr. Levi will be based with the Company's management team in Madrid, Spain.

Dr. Levi has over thirty years of executive management and board level experience spanning the chemicals, plastic, rubber and paper industries. Dr. Levi is recognized for his track record in turning around multinational companies and transforming business units. He has held board director roles at a number of companies, and currently serves as a director of Schweitzer-Mauduit International, Inc. (NYSE:SWM). Dr. Levi served as President and CEO of Alhstrom-Munksjö Oyj, a global fiber materials company listed in Finland, where he led a successful transformation of the business by refocusing its product portfolio towards value-added specialty products. Prior to Alhstrom, Dr. Levi was Senior Vice President and Business President of the \$3 billion emulsion polymers division of chemicals manufacturer Styron, including during the period in which Styron was acquired by Bain Capital from Dow Chemical Company. Dr. Levi previously had spent over twenty-two years at Dow in various departments and roles, ultimately serving as general manager of the emulsion polymers business.

Dr. Levi succeeds Pedro Larrea Paguaga, who has stepped down from the Company to pursue other opportunities, having served as CEO of Ferroglobe since its inception in 2015 and formerly as CEO of Grupo FerroAtlántica since 2011.

Javier López Madrid, the Company's Executive Chairman, commented, "Following a rigorous selection process, the Board and I are pleased to announce the appointment of Marco Levi as Ferroglobe's CEO. Throughout his career, Marco has demonstrated the ability to effectively lead global, asset rich materials technology companies facing many of the same dynamics and challenges we encounter. By drawing on his vast experience across the industrials sector and strong leadership, we are confident that Marco will successfully navigate Ferroglobe through the current cyclical downturn, and we look forward to working with him in the development of a new strategy for the Company centered on sustainable growth and profitability." Mr. López Madrid added, "I would like to thank Pedro Larrea for his contributions throughout the past eight years. He played an important role in the successful integration of the two businesses from which Ferroglobe was formed and has been instrumental in establishing the Company as a true multi-national, competing in all major global markets. Recently, he has driven the completion of a number of critical transactions, including complex divestitures of non-core assets and the refinancing of our revolving credit facility. The Board thanks Pedro for his dedication, professionalism and leadership and wishes him the best in his future endeavours."

Dr. Levi commented, "Ferroglobe is a global leader in its industry and has significant value which is currently unrealized by the market. I am excited to leverage my prior experiences to implement rapid change to return the Company to profitability. For several decades I have been reorienting industrial companies by taking a fresh look at the underlying business and transforming the platform to enhance competitiveness and drive sustainable growth. Working with the Company's Board and management team, I am confident we can unlock tremendous value for all stakeholders."

Mr. Larrea commented, "I am grateful to Ferroglobe and its Board for the opportunity it has given me to lead this dynamic organization. I thank my colleagues for all their hard work and dedication, particularly through what have been very challenging periods. I wish Marco Levi every success in his new role."

About Ferroglobe
