Ferroglobe PLC Announces Share Repurchase Program

LONDON, Aug. 21, 2018 –Ferroglobe PLC (NASDAQ:GSM) ("Ferroglobe" or the "Company"), the global leader in the production of silicon metal and a leading producer of silicon- and manganese-based specialty alloys, announced today that its Board of Directors has authorized the repurchase of up to \$20 million of the Company's ordinary shares in the period ending December 31, 2018.

"The Board of Directors believes that Ferroglobe's recently prevailing share prices do not reflect the Company's long-term intrinsic value, and that authorizing a share repurchase program is appropriate in light of our confidence in the business and its outlook. We consider our shares to offer an attractive investment opportunity. The allocation of funds to the buy-back will be balanced with our commitment to continue deleveraging the Company and with other value enhancing opportunities as they arise," said Javier López Madrid, Ferroglobe's Executive Chairman.

The Company has entered into Rule 10b5-1 repurchase plans with appointed brokers under which the Company will undertake purchases of its ordinary shares acquired by the brokers on the NASDAQ Global Select Market and through other permitted channels. The amount and timing of the share repurchases are subject to a number of factors, including Ferroglobe's share price and trading volumes.

Share repurchases under the program may be made through a variety of methods and the program does not oblige the Company to repurchase any specific number of shares. Save as required by applicable regulation, the program may be amended, suspended or discontinued by the Board of Directors at any time.

The Company intends to fund the repurchase program using existing cash and the proceeds of cash generating initiatives previously announced.
